

Hour Of Power Action Guide

Becoming Capable for Your Next Level

“Most goals are just simply unfulfilled wishes until we become willing to make a bold move towards it.”

In the Amplify Inner Circle, we become the people who can pull off any goal – no matter how big or scary. It’s time to set a goal that by achieving it, you will become relevant, visible and the BEST choice in the market for your best clients.

Set Your Goal!

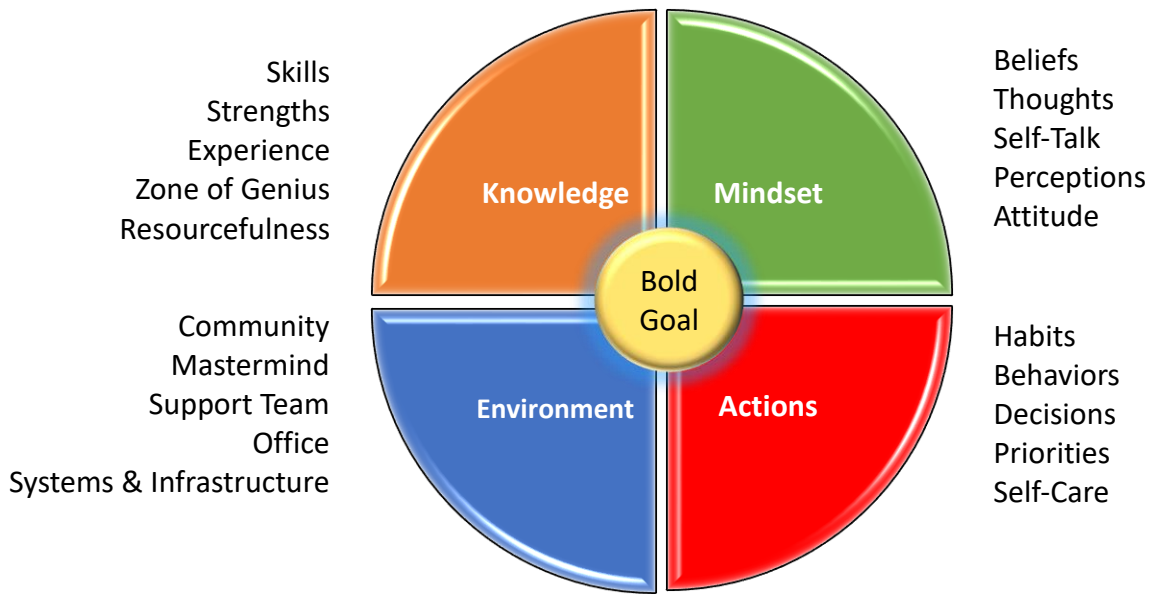

What is a goal that you’ve thought of for months, maybe even years, but it has felt out of reach? Maybe you don’t know “how” so you just cast it aside and prioritize your safer goals. Maybe it feels too big, too scary, too expensive, or too risky. Or too common or you just aren’t sure it makes sense anyway.

This is the year to claim it. It might look different at the end, but write out that goal, and what could be different for you when you reach it? What’s at stake if you don’t? How will you FEEL when you’ve arrived? Write out the goal as if its ALREADY real!
